## Horoscopes and Lotteries

By Tim Hutten

Do you ever wonder what will happen to you in the future? Alternatively, imagine what you could do with a million dollars, or may be two. I am sure that many of us have had these thoughts at some time or other, judging by the popularity of the horoscope columns and the purchasing of lottery tickets.

The Bible reveals to us that there is one God, "who is eternal, incomprehensible, invisible, immutable, infinite, almighty, perfectly wise, just, good, and the overflowing fountain of all good" (Belgic confession art. 1). We can obtain direction for our lives only when we turn to the Bible, which is the revealed will of God. He wants us to serve him. When we serve him we trust that he will provide us with all that we need.

Rather than relying on astrology or chance for direction in your life, give thanks to God for all that he has done in creation. He has preserved us and the world, and he has provided salvation through Jesus Christ his son. Giving thanks to God and serving him provides us with freedom from fear and anxiety. "But seek first his kingdom and his righteousness, and all these things will be given to you as well"(Matt. 6:33).
